

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and in a short time I had gained my average weight and am now strong and well."

—Mrs. SALLIE STEVENS, R. F. D., No. 3, Box 31, Waurika, Okla.

Another Grateful Woman.
Huntington, Mass.—"I was in a nervous, run down condition and for three years could find no help."

"I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I believe saved my life."

"My doctor knows what helped me and does not say one word against it."

—Mrs. MARI JANETTE BATES, Box 134, Huntington, Mass.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

Easiest Way to Break Up a Cold

The Hyomei Vapor Treatment Quickly Opens the Air Passages and Stops the Misery.

TRY IT TONIGHT

Go to Kelly & Pollard this very day: say "I want an Extra Bottle Hyomei Inhalant," lay down 50 cents, and start tonight just before going to bed to break up that stubborn cold with the wonderful HYOMEI vapor treatment.

Here it is: into a bowl three-quarters full of boiling water pour a teaspoonful of HYOMEI. Cover head and bowl with towel and breathe for five minutes the healing, soothing vapor that arises.

This method has been known to clear up the head in a few minutes and break up a cold over night.

For catarrh, coughs, colds, asthma, croup and catarrhal deafness HYOMEI is guaranteed. For sale by Kelly & Pollard, and druggists everywhere. Booklet on catarrh free from Booth's Hyomei Co., Buffalo, N. Y.

New modern housekeeping suites. Summer rates. Walking distance. Convenient to all cars.

HORSE ROLLS OFF HILL INTO HOUSE

Crashes Through the Roof as Woman and Children Leave Room.

Elephant Butte, N. M., March 8.—In the Mexican part of camp are tents, tent houses and rudely constructed houses of various kinds. Some are merely dugouts in the hillside. In one of these, live Joe Campos, wife and three children. Mrs. Campos and children had just left the little home a few minutes Saturday afternoon when a large horse belonging to a neighbor rolled in through the roof. The horse had been turned out to the water and it decided to take a roll on the hillside above the house and the hill being steep the horse rolled on down the hillside, finally landing inside the little home. When found the horse was lying on its back with its feet protruding through the crush roof. Many men were soon on the scene and after carrying out the household goods proceeded to liberate the horse. Much of the roof had to be taken away before the horse was able to get on its feet.

The reclamation working hours have been changed so as to allow one and one-half hours at noon. This gives men living at the town site time to go home for the noon day meal, the distance being about one mile. Heavy winds visited this section Monday but no serious damage resulted. The framework for the mechanics' quarters at the townsite is up, but not weather boarded. The building will contain 38 rooms.

The sewerage system at the townsite is being installed. A large gasoline engine has been placed in the pumping plant at the townsite.

Freight and express for the reclamation service are now being hauled over the new branch railroad.

The steel gang is yet stationed here. The grading for the track beyond this place to the damsite is nearing completion. In the meantime the steel gang can find employment laying side tracks and surfacing the railroad.

The foundation for the reclamation office is laid.

Three of the new, official cottages on the hill are nearing completion. The foundations for many more are being laid.

A number of people have already moved from here to the townsite, a mile away.

A large number of new tents are being erected near the mess building and mercantile store.

Mrs. Swan T. Olsen is suffering from an attack of tonsillitis.

Mr. and Mrs. W. M. Hall will arrive here tomorrow from El Paso, where they have been spending a couple of days. They will go to house-keeping in the house lately occupied by Mr. Hall. Mrs. Hall has been visiting her sister at Bisbee, Ariz., for some time.

The people here will welcome Theodore Roosevelt on March 15.

PARKER, ARIZ., VOTES TO CLOSE UP ITS ONLY SALOON

Phoenix, Ariz., March 8.—The village of Parker has voted to close the only saloon in the town. The measure went by a majority of nine votes. The local option election was held on account of the Indian lands being opened up by the government for colonization, and the people of Parker desiring to have a suitable class of settlers come into that neighborhood.

TWO GET HOMESTEADS IN LINCOLN FOREST RESERVE

Phoenix, N. M., March 8.—C. B. Berry and Lute Jennings, of Parsons, have received their final receipts for their homesteads in the Lincoln forest reserve.

Matt Gilmore of Alto, N. M., was in this vicinity Friday buying up yearlings for shipment in the spring.

Will Hust and family have moved back to their home near Nogal, N. M. Hust having completed his work here.

Horace A. Lay left on the Golden State limited today for Philadelphia, being called by the serious illness of his mother.

Are You One of These?

How to Keep Up Steam and Keep Going.

Are you enjoying life to the very utmost, is there anything wrong—have you a laboring man, too tired at the close of the day to enjoy your evening?

Are you a business, professional or office man or woman? Do you go to work with your shoulders back, chest up, with steady stride, enjoying the glow of the morning—carrying along for troubles that may come during the day? Or do you go along with a cramped and nervous gait, brooding and bawling up troubles before they appear; fretful and afraid of you know not what? Do you feel peevish, easily annoyed and upset, carrying a worried and woe-begone countenance or do things amuse you?

Do you see the funny side of things and laugh heartily? Do you lack power? Do people smile warmly when they greet you? Remember that the world is a mirror and but reflects to you what you give to the world. Is your brain befogged and clouded—unable to think clearly and satisfactorily; unable to solve problems quickly and arrive at a firm decision? Is each breath a pleasure and inspiration? Do you fear failure, without any apparent cause? Do you feel old; years again to feel the fire of youth—all its hopes, pleasures, and fancies? Do you need more ambition and energy? Are you looking at this beautiful world through the wrong end of the telescope?

Thousands of just such people as this have found quick and astonishing nerve force in the new and perfect medicine known as Curo Grains, now sold by druggists at 50 cents a package. A free trial will be mailed if you address L. C. Grains Co., 690 Pulitzer Bldg., Chicago, Ill.

Established in El Paso Four Years During Which Time We Have Treated Upwards of Three Thousand Cases. Not a Single Death.

Our success in the treatment of Chronic Diseases is not due to any one method but our combined knowledge of all the schools of medicine, together with many years' experience exclusively as Specialists and several years in general, surgical and hospital work before specializing. No one school or method of practice can be successful in all classes of diseases, many seem to lose sight of this fact and extravagant claims are made by these cranks who see no good in anything but their narrow ideas.

Modern medical research is fast bringing to light new discoveries and improvement in older methods that are astounding. One among the many of these is the production of a remedy one dose of which in many cases effects a cure in that most obstinate disease, BLOOD POISON.

We have always and are still keeping abreast of the times, our offices are equipped for the administration of all the newer and better methods of treatment, we charge no more for skillful and above all, effective treatment than those who are unprepared or unqualified, this is why our practice is the largest of any doctor in El Paso, not a one of which no matter what school he represents can lay claim to the record of cures without a single death, that we have made. We realize that this is a broad statement for a Doctor to make but the records are open for inspection.

Remember we are not here today and some other place tomorrow, next month or next year, our present lease runs for a number of years and we are here to make good every claim either in our newspaper announcements or in our personal talks.

We Cure Promptly, Safely, Thoroughly at Lowest Cost

Varicocele in twenty minutes, without pain, danger or detention from business. Hydrocele in 30 minutes without resorting to surgery, and no inconvenience is experienced from the treatment. Rupture in from one to five treatments, without operation, pain or danger. We cure any case that can be retained with any kind of truss or plaster bandage.

Stricture without cutting, dilating (stretching) sounding or other painful procedure. The canal is restored to a perfectly sound healthy condition and the cure is permanent.

Files, Fistula and Fissure by modern electrical methods. We use no injections, ligatures, cautery or other painful measures.

SERUM AND ORGANIC methods are used in the cure of constitutional diseases, especially in Nervous Decline, Neurasthenia, Epilepsy, and Palsy, results in many cases are phenomenal.

A CAREFUL PHYSICAL and when necessary AN X-RAY AND MICROSCOPICAL EXAMINATION TOGETHER WITH OUR OPINION, AND ADVICE, GIVEN EACH CALLER FREE OF CHARGE, AND IF WE FAIL TO DO ALL WE CLAIM OUR SERVICES COST YOU NOTHING.

If unable to call write for information.

CONSULTATION, EXAMINATION AND OUR OPINION AND ADVICE FREE.

GRANDFALLS DITCH COMPANIES MERGE

From Small Ditch, a Big Irrigation Project Has Grown in Valley.

Grandfalls, Tex., March 8.—The most important transaction that has yet taken place whereby this section will be the beneficiary was the deed of transfer of the Big Valley Irrigation company, the Grandfalls Lake and Reservoir company, both some 30 miles up the river, and the Grandfalls Mutual Irrigation company's interest at this place, to a company composed principally of northern capitalists and which will be known as the consolidated Reservoir and Irrigation company with a capital stock of \$400,000.

All of the capital will be expended in making permanent and pure water facilities for this and the Big Valley.

The program of improvements being large reservoirs that will in themselves hold sufficient water to irrigate all lands being under the canals, in the driest season.

The scarcity of water has been the one and only condition that has retarded the growth of this place, but now as the construction of these reservoirs means an abundance of water, developments will speedily follow.

Already prospective homesteaders are coming in to take advantage of the situation.

If going through the fire of experience and coming out unscathed and in good condition is prophetic of a brilliant future, Grandfalls should shine as the brightest star in the constellation.

Some 17 years ago a small canal was taken from the Pecos river about 10 miles above where the town is located for the purpose of irrigating lands owned by private parties. This work was performed by Lee Hardeman, a young civil engineer, who owned lands on the river near this place.

About the time that he got his military canal in condition for service, parties John T. Swente, R. I. Carr and R. B. Harland, all of California, heard of the proposition and looking over the situation soon took stock and enlarged the ditch to the proportions of a canal.

About the time all was in readiness for success, the Pecos river got on one of its periodical tears and remained up for some time. The damage resulting from this was a hard blow to these pioneers, but not to be outwitted, they sought and obtained assistance.

Going higher up the river for a location for a diversion dam, it was secured at the present site and another and more substantial dam was constructed with brush and rock that is standing today, though several times since its creation has damage resulted from high water.

Two or three companies have from time to time had control, each of whom made many dollars, but did nothing in the way of improving or maintaining the canal.

During this time there have been cleared up and put in cultivation 14,000 acres of this valley, in the face of adverse conditions, consequently the valley is now in condition to take care of the influx of people expected soon to be flocking to this section in search of irrigable lands.

STOCK CAR BETTER THAN NONE AT ALL

Greek Priest Comes From Mexico on Special Train of One Car.

A special car (stock car) on a special train (one engine and the aforesaid stock car) was the train de luxe which brought father Gildas of the Greek church from Candelaria to El Paso.

Father Gildas is in charge of the little flock of folks who are pioneering at the "back to the soil" colony 50 miles below El Paso on the National line. Since the National line has been out of commission, the little colony has had no way of receiving supplies and the work of developing the land has been at a standstill for a month.

Father Gildas came to El Paso to have his eyes tested and will return to his fold as soon as there is a Pullman train, freight train, stock train or handcar going in that general direction.

BOY SEEKS REVENGE.

Because, he said, a lad named Salazar had whipped him, Jose Chincorico, 14-year-old, painted a portion of his house with a piece of greased waste. He said a police court Tuesday afternoon that he had done it to get even. After a lecture he was dismissed.

MAKE PROGRESS ON CALISHER BUILDING

The first floor of the new Calisher building has been poured and the reinforcing for the second floor column supports are now being made and set up on the concrete floor. The main floor was poured Tuesday and completed late Tuesday night. The basement and retaining walls which have been built to hold the soil north back from the main walls, have all been completed and the building will now begin to rise in the air at the rate of a floor a week. The building is to be five stories with a basement, sub basement and a roof garden. It is to be of reinforced concrete and will have a curved corner front on Texas and Stanton streets.

ARE PUTTING PLATE GLASS WINDOWS IN SKYSCRAPER.

The plate glass windows in the first floor front of the Anson Mills building are being set in the rooms to be occupied by the Santa Fe city ticket office and the room that H. B. Stevens has set apart for his own little bit of the big building. The plate glass is also being placed on the Oregon street front of the building and the skyscraper is beginning to take on a finished appearance, with the copper awning and marble fronts and plate glass.

RATE HEARING IS HELD IN PHOENIX

Infuriated Bull Chases an Automobile—Rainfall at Phoenix.

Phoenix, Ariz., March 8.—Railroad officials from El Paso, Chicago, San Francisco and other points are in Phoenix attending the hearing before Ferdinand Vassault of Washington, D. C., an examiner sent by the interstate commerce commission to take evidence regarding the freight rates on commodities. The hearing is being held as a result of a request by the Maricopa Commercial club for lower freight rates on commodities.

The matter of the local option election has been laid aside by the board of supervisors until it can be considered at the next meeting of this body on April 2. The reason for holding this matter up was made necessary on account of Judge Kane failing to hand down his decision in the registration case at this session of the court.

A bull, becoming infuriated by the red light on the rear end of an automobile, pursued the machine for about a half a mile along the Tempe road, which runs between Mesa and Phoenix. The driver had stopped the machine and had just lighted the rear lantern when he heard a noise, and on looking around, discovered it was the bull. The machine was quickly started up and the infuriated animal outdistanced.

One-half inch of rainfall fell in the Salt river valley during one day. This brings the season's total rainfall since Jan. 1 up to 2.3 inches. The recent rainfalls have greatly increased the supply of water in the Roosevelt dam and at present there is 321,582 acre feet of water back of the dam.

TIME TO CHANGE CLOTHES.

You are due to have a new spring suit. We have the largest and prettiest line of new spring patterns in the southwest, will make you a suit to your order, fit guaranteed, for \$20 to \$40.

ARE RUEF BEGINS PENITENTIARY TERM

San Francisco, Cal., March 8.—Having exhausted every legal resource in a three year's struggle to escape the penitentiary, Abraham Ruef formerly political boss of San Francisco was sent to San Quentin late yesterday, to begin a 14 year term for the bribery of

supervisors during the regime of former mayor Eugene Semitz.

Ruef anticipated the usual prison regulations by having his mustache removed and his hair cropped closely before his departure. Only a handful of his former lieutenants and friends were at the ferry to bid him farewell.

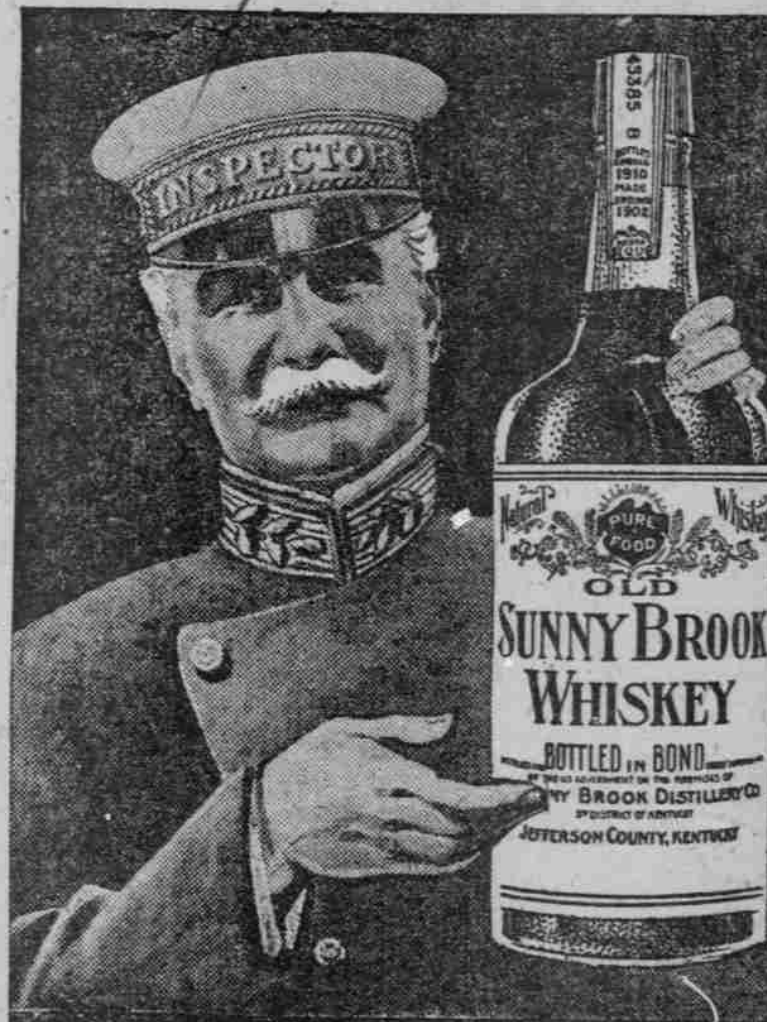

Wardner Hoyle, of San Quentin, has announced that Ruef will be put at work in the lime mill of the prison.

Ruef and his coterie of politicians for years ruled the city of the Golden Gate with an iron hand, extorting

ABE RUEF.

money from her citizens, and exploiting her public works for his own gain. He was finally brought to book for his crimes, confessed his guilt and was sentenced to 14 years at hard labor. Ruef's counsel appealed the case and the self-confessed criminal was allowed his liberty under a bail of \$350,000. The appeal, however, was not granted by the court, an order for Ruef's arrest was issued, and he was taken into custody and allowed seven days in which to settle up his affairs.
